

THE PEOPLE AND THEIR SCHOOL DISTRICT

The board recognizes the value of interaction and participation with the citizens of the district community for the school district's educational program and operations. Popular control of public education is one of the cornerstones of a free society. The people exercise that control through their Board of Directors. The board will cooperate and participate, whenever possible, with the district community while carrying out its elected responsibilities.

It shall be the responsibility of the superintendent to keep the board apprised of opportunities for involvement with the district community.
