

STUDENT TEACHERS - INTERNSHIPS

The board will cooperate with post-secondary educational institutions to assist in the practical preparation of teachers and other licensed personnel positions. Student teachers and other student internships may be accepted for duties in the school district.

Licensed personnel shall not be required to accept student teachers or student interns. Teachers may be allowed to have student teachers or student interns upon approval of the superintendent.

It shall be the responsibility of the superintendent to make arrangements with the post-secondary educational institutions for student teachers and student internships. Such arrangements shall safeguard the interest of the student teachers and student interns, the post-secondary educational institution, and the school district.

It shall be the responsibility of the post-secondary educational institution to provide sufficient supervision over the work of these student teachers to make their presence profitable.
