

## CAREER EDUCATION

School-to-career educational programming will be incorporated into the Comprehensive School Improvement Plan. Curricular and cocurricular teaching and learning experiences regarding career education shall be provided from the prekindergarten level through grade twelve.

Preparing students for careers is one goal of the educational program. Career education will be infused into the educational program for grades kindergarten through twelve. This education shall include, but not be limited to, awareness of self in relation to others and the needs of society; exploration of employment opportunities, at a minimum, within Iowa; experiences in personal decision-making; experiences that help students connect work values into all aspects of their lives; and the development of employability skills.

It shall be the responsibility of the superintendent to assist licensed personnel in finding ways to provide career education in most courses. The board, in its review of the curriculum, shall review the means in which career education is combined with other instructional programs.
