

INSUFFICIENT CLASSROOM SPACE

Insufficient classroom space exists when conditions adversely affect the implementation of the educational philosophy and program of the board. The board shall determine insufficient classroom space on a case-by-case basis.

On January 31st of each year, the superintendent will review available spaces for external open enrollment students. Starting February 1st, forms will be available at the Central Office that must be submitted prior to March 1st. Families may indicate their top three choices of schools in the district. A list will be formed to take those allocations to the board. The list will be first come first serve. If a K-6 student starts and finishes a school year at a school during the year, they may remain at that elementary during their career.

This policy shall be reviewed by the board annually between the months of July and October.
