

## SCHOOL VEHICLE ROUTES

The board has sole discretion to determine the school bus routes for the school district.

It shall be the responsibility of the director of operations to develop the school bus routes keeping in mind the safety of the students, the size of the school buses, the length of the route, the cost to the school district, and other factors as deemed relevant by the board, superintendent or director of operations. The director of operations shall also develop emergency school bus routes that may be necessary due to weather or other conditions.
