

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements, make it unsafe to do so. Because weather conditions may vary around the district and may change quickly, the best judgment will be used that is possible with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the director of operations and by actual "on location" decisions.

Employees and students will be notified by commercial radio and television when school is cancelled or temporarily delayed.

When weather conditions deteriorate during the day after school has begun, a decision will be made prior to noon whether or not to dismiss early.
