

CHILD CARE PROGRAM
SPECIAL NEEDS STUDENTS

The personnel at the center recognize the need to serve children with special needs. The parent/guardian of special needs students will be expected to supply all regularly required forms: yearly physical, immunization card, medical consent, etc.

In consideration of the welfare of all children, the special needs student cannot detract from the day-to-day routines at the center. The director of the center reserves the right to discharge any child, according to the discharge policy previously stated.
