

EDUCATIONAL SPECIFICATIONS FOR BUILDINGS AND SITES

Facilities considered for purchase or construction by the board or currently owned by the board and used for the educational program must meet or, upon improvement, be able to meet the specifications set by the board. The board shall make this determination.

The educational specifications shall include, but not be limited to, the financial resources available for the project, the definition and character of classrooms, the functional use to be made of the rooms, description of specialized needs, and other pertinent information as the board deems necessary.

It shall be the responsibility of the superintendent to make a recommendation to the board regarding the specifications of facilities.
