

ASBESTOS CONTAINING MATERIAL

Friable and non-friable asbestos-containing materials will be maintained in good condition and appropriate precautions will be followed when the material is disturbed for any reason. If there is a need to replace asbestos-wrapped pipes or boiler covering, these will be replaced with non-asbestos-containing materials.

The school district will implement the rules of AHERA and will provide the necessary funding to implement the response actions as required. The school district will appoint and train as necessary the appropriate person as required in the rules.
