

PRINCIPLES AND OBJECTIVES FOR COMMUNITY RELATIONS

Successful education programs require the support of the school district community. The board addresses the importance of the role of the school district community in the school district in this series of the policy manual. The board recognizes this support is dependent on the community understanding and participating in the efforts, goals, challenges and programs of the school district.

In this section, the board sets out its policies defining its relationship with the school district community. In striving to obtain the support of the school district community, the board will:

- Provide access to school district records as per board policy;
- Inform the community of the school district's goals, objectives, achievements, and needs;
- Invite the advice and counsel of the community; and
- Encourage cooperation and participation between the school district and the community.
